Standards bring economic  
success and exportable  
ideas.

Standards build bridges  
to the market for:  
**Products**

A woman wearing a brown baseball cap and a red and black plaid shirt is shown in profile, looking towards the right. She is holding a white tablet computer. In the background, a drone is flying in the sky above a field of wheat. The scene is set outdoors with mountains visible in the distance under a clear sky.

Standards build bridges  
to the market for:  
**Services**

A female scientist with long blonde hair, wearing a white lab coat, is shown in profile, looking through a black microscope. She is in a laboratory setting with a green lab bench. The background is slightly blurred, showing shelves with various lab equipment and a window with blinds. The overall lighting is soft and professional.

Standards build bridges  
to the market for:

Research results

## Awarded Achievements:

- Better health programs
- Alternative fuel calculations
- Test methods without animal suffering
- Smart glasses with eye trackinging

As the winners of the Living Standards Awards prove every year.

Standards are a central element for a green, digital and resilient internal market.

A woman wearing a white hard hat and a high-visibility yellow safety vest over a white collared shirt is focused on a silver laptop. She is standing on a rooftop where solar panels are being installed. In the background, other workers in similar safety gear are visible, and the sky is a clear, bright blue with some light clouds. The overall scene conveys a sense of modern, sustainable construction.

Standards strengthen Europe  
in international competition.

Examples:

Green Deal

A man and a woman in business attire are standing in a modern office. The man, wearing glasses and a grey blazer, is holding a laptop and smiling. The woman, wearing a light blue shirt and a dark skirt, is holding a tablet and looking at the man. They are in front of a wall with a geometric pattern of white lines on a dark background. To the left, there are green plants.

Standards strengthen Europe  
in international competition.

Examples:

Sustainability

A young woman with long dark hair in a ponytail, wearing a green turtleneck sweater and a VR headset, is smiling and gesturing with her hands. She is in a classroom or workshop setting. In the background, other students are visible, some working on projects. The scene is brightly lit and modern.

Standards strengthen Europe  
in international competition.

Examples:

Digital Transformation

Standards strengthen Europe  
in international competition.

Examples:

Artificial Intelligence

A woman with long dark hair in a bun, wearing glasses and a grey cardigan, is pointing at a tablet held by a man. The man has a beard and glasses, wearing a grey sweater, and is looking at the tablet with a thoughtful expression, his hand near his chin. They are in a modern office with glass walls and blue lighting. In the background, there are computer monitors and server racks. Another person is partially visible in the foreground on the right, wearing a headset.

Standards strengthen Europe  
in international competition.

Examples:

Cyber Security

# Austrian Standards ensures ...

... that Austria is heard on the  
European and international stage.

European level

International level

2022 ↗

The formula for the  
success of standards:

Concentrated know-how  
& openness to everyone

Cooperation  
& diversity

Standards need active  
participation.

Perspectives

Economy

Society

The more perspectives are incorporated,  
the greater the added value for economy and society.

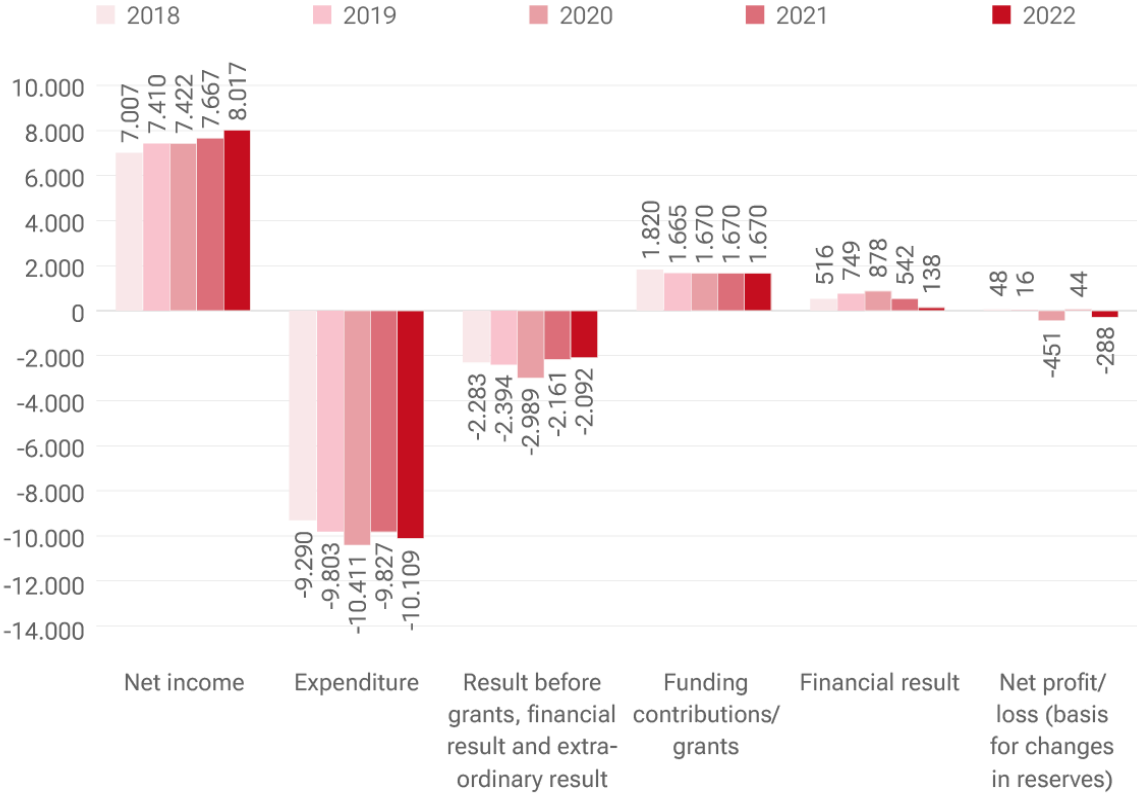

# Shape your innovation with standards.

Become a part of our standardisation network.
