Aspekte der Standardisierung werden von der EK vorgegeben und sind bereits bei der Projekteinreichung zu berücksichtigen:

- .....**Research must build on existing standards or contribute to standardisation.** Interoperability for data sharing should be addressed.....
- The objective is to exploit the potential of AI as a transformation tool to support circular production in the entire manufacturing and process industry, with **due consideration for standardisation activities** when relevant.
- Plan a list of actions to **overcome non-technological barriers for exploitation** of crosscompany symbiosis (i.e. waste regulations, **standardisation**, confidentiality and compliance, ownership, fair sharing of benefits, acceptance of the concept);
- Actions should facilitate the market uptake of solutions developed through industrially- and user-driven multidisciplinary consortia covering the relevant value chain and **should consider standardisation aspects when relevant**
